

Sie vermissen das Licht und Nostalgie-Design einer Glühlampe mit Ihrem Wolframdraht? Bestechend durch ihre klassische Form sowie der LED-Strings in Glühwendeloptik sind die Filament LEDs der perfekte Ersatz für die traditionelle Glühlampe. Darüber hinaus überzeugen sie durch die hohe Lichtausbeute und lange Lebensdauer von 15.000 Stunden. Die Filament LED Serie hat es vollbracht das futuristische Aussehen der heutzutage erhältlichen LED-Retrofits mit ihren Kühlkörpern hinter sich zu lassen, und auf gewohntes traditionelles Design zu setzen. Die Filaments sind, ähnlich wie die Glühlampen, in verschiedenen Wattagen und Bauformen mit bis zu 800 Lumen erhältlich.

Missing the light and nostalgic touch of the old incandescent light bulb with its tungsten filament? With its vintage classic shape and LED strings in traditional incandescent look, our Filament LEDs are the perfect retrofit choice for replacing the banned light bulb. Outstanding features are their long lifespan of 15,000 hours, as well as their high luminous output. When compared to standard LED bulbs with their overdimensional cooling part, filament LED bulbs set themselves apart through their vintage traditional design. Filament LED bulbs, similarly to the incandescent bulbs, come in all possible shapes and wattages with up to 800 lumens.

Gefertigt auf Glühlampenmaschinen

ART.Nr.: LED-DIM3

LED Dimmer 2-200W

87x87x43mm

Single pole 2 way dimmer

Works with incandescent and halogen bulb

Push ON / OFF

Rotate to adjust light level
