

EiKO[®] Highlights 2026

NEW:

**EiKO Lighting Solutions –
When planning becomes reality.**

EiKO[®]

LIGHTING
SOLUTIONS

More than light. We make it happen.

Since February 2026, EiKO Lighting Solutions, a subsidiary of EiKO-Europe GmbH, has been complementing the group of companies as an independent unit for professional electrical installation and project implementation.

With a clear focus on the professional realisation of modern lighting and energy concepts, we combine the extensive lighting expertise of EiKO-Europe GmbH with precise craftsmanship on site. This creates a strong combination of product expertise, technical planning and practical installation.

Our aim is not only to support projects, but to implement them reliably, efficiently and to the highest technical standards – from the initial concept to final commissioning.

**The EiKO Lighting Solutions premises are located at
Gartenkamp 127, 49492 Westerkappeln.**

Overview of our services

**Electrical installations
Implementation of sophisticated lighting projects
Modernisation and retrofitting of existing systems
Project support and on-site technical assistance**

EiKO Lighting Solutions stands for quality, commitment and practical solutions – from a single source.
